<p style="text-align: center;"><b>TECHNICAL ABSTRACT</b></p> <p>'AgriSanté' stands as an innovative and transformative capacity-building endeavor spearheaded by the Movement Progrès Roche Bois with the technical &amp; operational support of ViaTerra Ltd. Its central mission revolves around elevating the well-being of the youth in Roche Bois by augmenting their nutritional health and ecological proficiency. The project is an innovative empowerment programme which addresses the negative impacts of poverty on youth by supporting youth-led actions geared towards sustainable nutrition access and "agriprenurship" through the implementation of ecological knowledge and skills. Within the project's framework lies a profound exploration of the socioeconomic realities faced by the youth in Roche Bois, as well as a meticulous examination of their nutritional status. This endeavor seeks to attain a comprehensive understanding of how poverty and nutrition intersect and influence overall well-being. The project employs a meticulously designed programmatic approach, combining essential elements such as research, knowledge and skills capacity building workshops, and hands-on agricultural activities. Ultimately, this initiative strives to empower the youth of Roche Bois by, fostering holistic growth and nurturing agri-business opportunities and innovation.</p> <p>AgriSanté' pursues a triple-fold ambition:</p> <ul style="list-style-type: none"> <li>• Enhance the nutritional well-being and knowledge of Roche Bois' youth by facilitating improved access to nutritious foods and fostering a deeper understanding of nutrition for healthier lifestyles.</li> <li>• Assess and establish a median ratio of household consumption to generated surplus in aim to assess business development potential and feasibility processes that shall facilitate the implementation of a standard distribution and revenue system mechanism to support the long-term impact sustainability of the project.</li> <li>• Enrich the youth of Roche Bois with a comprehensive comprehension of nature and its services and its profound impact on human well-being.</li> </ul>
